

# Saniplus

Multi-purpose sanitizing detergent

Cleaning &  
Maintenance

## Saniplus

Sanitizing detergent for any kind of surface. Sanitizing detergent to clean floors and hard surfaces. Formulation based on benzalkonium chloride (active ingredient classified as biocide by ECHA – European Chemicals Agency) and hydrogen peroxide, it can act quickly and effectively against germs and bacteria removing dirt and grease. It is also effective against germs, bacteria (Gram + and Gram-), fungi, algae and spores.

Saniplus is suitable for cleaning tables, worktops, shelves, furniture, handles etc. Saniplus can be used for daily cleaning of even the most delicate surfaces, it can dry quickly, is streak-free, does not require rinsing and leaves a delicate scent. It is suitable for pet space.

Saniplus complies with the cleaning protocol aimed at decontamination, according to the recommendations of the WHO (World Health Organisation) and indicated in the Italian Ministry of Health's Official Document 5443 of 22/02/2020, when used in combination with the Reset 4.2 decontaminant solution based on sodium hypochlorite.

### Technical data – 20 °C, 60% R.H.

Appearance	Green liquid
Density	1.00 kg/litre
pH	7
Storage	24 months in original sealed packaging – Frost sensitive
Packaging	1 litre bottles, 5 litre plastic cans

### Instructions for use

Before washing, remove dust from the surface.

Shake before using. Spray the product directly on the surface to be cleaned at a distance of 25 – 30 cm. For a greater sanitizing effect, let it act for a few minutes before wiping with a damp cloth and let it dry. No need to rinse. Alternatively, pour the product onto a soft cloth and then pass over the surface.

For the treatment of delicate surfaces it is advisable to pour Saniplus directly on the cloth and carry out a preliminary test.

Saniplus, diluted in a ratio of 1:3 with water, can also be used for floor cleaning, in accordance with the cleaning protocol aimed at decontamination, according to the WHO (World Health Organisation) recommendations and indicated in the Italian Ministry of Health's Official Document 5443 of 22/02 / 2020.

### Ingredients

The ingredient list complies with the EC 648/2004 Regulation of Detergents – Less than 5%: Non-ionic surfactants, Cationic surfactants (benzalkonium chloride), Oxygen-based bleaching agents, EDTA, Perfume.

Biodegradable according to the law

### Disposal

Dispose of the unused product and empty packaging in accordance with the provisions of the local legislation in force.
