

KUBAN

COFFEE PROCESSING MASTER™

Our company, Kuban Makina, was established in 1996 by Ahmet Demirden in İzmir, Turkey. When our passion for coffee became irresistible, we decided to turn this love into a business and started to produce “coffee processing machines and equipment” for coffee-lovers all around the world.

We have expanded our product range since the beginning of our operations, and now, we serve both the domestic and international markets. Nearly 25 years of experience in the coffee industry has brought us mastery. Moreover, we constantly improve our products and services on the basis of customer satisfaction with our dynamic and disciplined team.

We pioneer this passion by using high-quality raw materials in all of our products that we produce. We stand out with our high-performance products, which are specially combined by our expert engineers. Our machines can be customized to customer demands.

KUBAN BASE 05

KUBAN BASE-05

It is the smallest coffee roaster of the KUBAN Family. Combining aesthetics and technology, it is an excellent choice for customers who want to roast coffee in small amounts. Thanks to its user-friendly design, ease of use, and practicality, it also attracts great interest from newly-opened third-wave coffee houses.

Customization

Our roasters are customized in terms of colour, finishing, brand name, electric (voltage and frequency), heating source and language preferences.
