

Sistem usi glisante BLUE 18mm LIBRA - SCHITA DE MONTAJ -

In schita de mai jos este figurat interiorul (golul) unui dulap.

Calculul profilelor pleaca de la stabilirea dimensiunii usilor:

⇒ **Calcul inaltime usa**

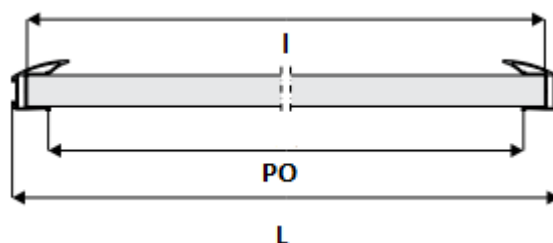

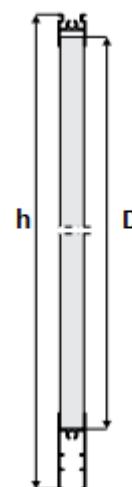

Inaltime usa (h) = H – 33 mm

⇒ **Calcul latime usa** (in functie de cate usi are dulapul: 2, 3, 4 usi):

Numar usi	Latime usa (L)
2 usi	$\frac{A + 29 \text{ mm}}{2}$
3 usi	$\frac{A + 61 \text{ mm}}{3}$

⇒ **Calcul inaltime panou (D):**

D= Inaltime usa (h) -61mm

⇒ **Calcul latime panou (I):**

I = Latime usa (L) -17mm pentru usi cu panou 18mm

I = Latime usa (L) - 21mm pentru usi cu sticla sau oglinda

⇒ **Calcul profile horizontale sistem:**

Lungime profil orizontal superior / inferior (PO) = L - 40.4mm
