

Насочващата LED лампа BETA LED предлага качествено осветяване и достатъчно светлина на достъпна цена. Серията предлага лампи с два цокъла GU10 и G5.3 и работещи при напрежение 230V, т.е. не е необходим трансформатор за понижаване на напрежението. Лампите са налични в три цветни температури: 3000K, 4000K и 6400K.

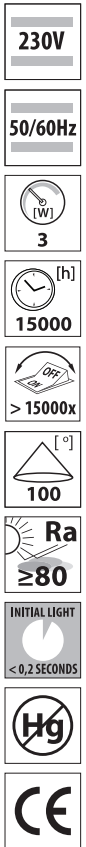

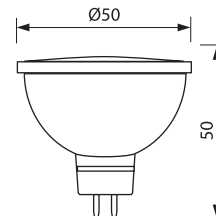

The directional LED lamp BETA LED offers quality illumination and enough light at a reasonable price. The lamps from this series are supplied with either GU10 or G5.3 base that operate at 230V, i.e. no transformer is necessary. The color temperature of the series is 3000K, 4000K or 6400K.
