PHILIPS Lighting

CoreLine Malaga LED

BRP101 LED37/740 I DM

CoreLine Malaga LED small - LED module 3700 lm - Power supply unit - Safety class I - Distribution medium - Universal for diameter 42 to 60 mm adjustable

The CoreLine Malaga LED family is designed for general Road, Street and Residential application. The family consists of two sizes and uses a Philips standardized design LED engine as light source and a Philips Xitanium fixed output outdoor driver. Quality you can rely on.CoreLine Malaga LED has been designed as efficient as possible, performing the same task as the SON-T 50, 70, 100 and 150W luminaires it replaces; provide the right amount of light in the right place. The medium beam (DM) optic delivers an efficient distribution onto the road. The combination results in interesting energy savings which reduce operating costs significantly. 50% energy reduction is realistically possible. At the same time, the investment in a CoreLine Malaga LED luminaire is in many cases on the same level as an old SON-T luminaire including the first lamp. As the LED light engine in CoreLine Malaga LED will last the life time of the luminaire, just by saving the multiple lamp replacements needed with SON-T will already return the investment in it.Ease of installation is obtained through the extended gland feature; the luminaire does not need to be opened to connect the power cable. At the same time, the flat glass cover can be removed to allow access to the driver for maintenance if required. Adding up the functions and features truly make a choice for CoreLine Malaga LED an easy decision. As a member of the CoreLine family, Malaga LED is easy and quick available thru Philips Partners near you. Simply efficient.;Specials;;In addition to the standard version of CoreLine Malaga LED as described above, also versions with several options are available. As these are specials, and manufactured to order received only, these specials do have a longer delivery time. Options available are;;Wide beam (DW) optic.;Added surge protection device 10kV (SRG10).;Marine Salt Protection (MSP) paint finish, e.g. for coastal areas.;Micro Mini Pro photocell 35 Lux.;Build in (glass) fuse 6A.;3 meters external flying lead cable (H07RN-F).;Not all these options can always be combined with each other. Please consult your Philips partner for specific details in case of interest or doubt.

CoreLine Malaga LED

Product data

General Information	
Lamp family code	LED37 [LED module 3700 lm]
Light source color	740 neutral white
Light source replaceable	No
Number of gear units	1 unit
Driver/power unit/transformer	Power supply unit
Driver included	Yes
Optical cover/lens type	Flat glass
Luminaire light beam spread	-
Control interface	-
Connection	Push-in connector and pull relief
Cable	-
Protection class IEC	Safety class I
Flammability mark	-
CE mark	CE mark
ENEC mark	ENEC mark
Warranty period	5 years
Optic type outdoor	Distribution medium
Remarks	*-Per Lighting Europe guidance paper
	"Evaluating performance of LED based
	luminaires - January 2018": statistically there
	is no relevant difference in lumen
	maintenance between B50 and for example
	B10. Therefore the median useful life (B50)
	value also represents the B10 value.
Constant light output	No
Number of products on MCB of 16 A type	11
В	
RoHS mark	RoHS mark
Light source engine type	LED
Service tag	Yes
Product family code	BRP101 [CoreLine Malaga LED small]
Light Technical	
Light Technical	
Light lechnical Upward light output ratio	0

Controls and Dimming	Ne
Dimmable	No
Mechanical and Housing	
Housing Material	Aluminum die cast
Reflector material	-
Optic material	Polymethyl methacrylate
Optical cover/lens material	Tempered glass
Fixation material	Aluminum
Mounting device	Universal for diameter 42 to 60 mm
	adjustable
Optical cover/lens shape	Flat
Optical cover/lens finish	Clear
Overall length	333 mm
Overall width	197 mm
Overall height	78 mm
Overall diameter	360 mm
Effective projected area	0.016478 m ²
Color	Gray
	-
Approval and Application	
Ingress protection code	IP65 [Dust penetration-protected, jet-proof
Mech. impact protection code	IK08 [5 J vandal-protected]
Surge Protection (Common/Differential)	Luminaire surge protection level until 4 kV
	differential mode and 4 kV common mode
Initial Performance (IEC Compliant)	
Initial luminous flux (system flux)	3054 lm
Luminous flux tolerance	+/-7%
Initial LED luminaire efficacy	103 lm/W
Init. Corr. Color Temperature	4000 K
Init. Color Rendering Index	70
Initial chromaticity	(0.41, 0.39) SDCM ≤5
Initial input power	29.6 W
Initial input power Power consumption tolerance	29.6 W +/-11%
	+/-11%
Power consumption tolerance	+/-11%
Power consumption tolerance Over Time Performance (IEC Compli	+/-11%
Power consumption tolerance Over Time Performance (IEC Compli Control gear failure rate at median useful	+/-11% ant) 10 %
Power consumption tolerance Over Time Performance (IEC Compli Control gear failure rate at median useful life 100000 h	+/-11% ant) 10 %
Power consumption tolerance Over Time Performance (IEC Compli Control gear failure rate at median useful life 100000 h Lumen maintenance at median useful life ⁴ 100000 h	+/-11% ant) 10 %
Power consumption tolerance Over Time Performance (IEC Compli Control gear failure rate at median useful life 100000 h Lumen maintenance at median useful life ⁴ 100000 h Application Conditions	+/-11% aant) 10 % * L70
Power consumption tolerance Over Time Performance (IEC Compli Control gear failure rate at median useful life 100000 h Lumen maintenance at median useful life 100000 h Application Conditions Ambient temperature range	+/-11% iant) 10 % * L70 -40 to +35 °C
Power consumption tolerance Over Time Performance (IEC Compli Control gear failure rate at median useful life 100000 h Lumen maintenance at median useful life ⁴ 100000 h Application Conditions	+/-11% aant) 10 % * L70
