

AMEFA FOR PROFESSIONALS

STRONG BRANDS. STRONG PRODUCTS.

Founded in 1931, Amefa's heritage has been built on the catering and food service industry and we have become one of the key players in this sector. Amefa products are sold in more than 65 countries across the globe and are the first choice for millions of homes and restaurants every day. With our brands Amefa, Richardson Sheffield, Couzon, Cuisinox, Kuppels, Paul Wirths, Lou Laguiole, Sabatier Trompette and Medard de Noblat, our products can be found on tables and kitchens all over the world.

When it comes to pulling out all the stops, with our Premiere cutlery we not only strive to meet, but exceed our customers' expectations. Effortlessly chic designs crafted in exceptional quality 18 /10 stainless steel. Each piece is finished to our exacting quality standards and will give you years of exemplary service.

Everybody can dine together at the Amefa table. Choice and value go hand in hand, so you can be sure that whatever your budget, we've got a cutlery set that suits your taste. What makes Amefa stand out is our passion for lasting quality and craftsmanship. We don't cut corners and our cutlery is beautiful down to the very last detail.

Richardson Sheffield are a bold, British brand, who have been shaping the global knife market since 1839. For professional chefs, the quality of their knives must be without question and our products lead the way with the finest materials and their superior performance.

A collection of knives that cover all catering uses, and offers a level of professional quality for powerful tools which will last over time.

Lou Laguiole® signs exclusive designs on cutlery, which combines Tradition and Modernity for daily authentic tables. We place all our know-how at the service of this unique collection.

CREATIVE COOKING. DELICIOUS DINING.

At Amefa, we know all about cutlery, kitchen knives, cookware and dinnerware. After all, we've been setting tables all over the world since 1931!

Founded in 1931, Amefa's heritage has been built on the catering and food service industry and we have become one of the key players in this sector. With a young and energetic team, the Amefa group continues to grow and evolve in response to the rapidly changing demands of the industry.

Amefa products are sold in more than 65 countries across the globe and are the first choice in millions of homes and restaurants every day. With our brands Amefa, Richardson Sheffield, Couzon, Cuisinox, Kuppels, Paul Wirths, Lou Laguiole, Sabatier Trompette and Medard de Noblat, our products can be found all over the world. Over the years we have built up an exceptional reputation within the industry, but it is our local knowledge that allows us to focus on the details that matter to you.

QUALITY AND CRAFTSMANSHIP

Anyone can create a look. What really makes Amefa stand out is our passion for lasting quality and craftsmanship. We don't cut corners and our cutlery is beautifully finished down to the very last detail.

In a professional setting the performance demands placed on cutlery and knives by far exceed those of any domestic situation. It is only by insisting on the highest levels of quality that we are able to guarantee the durability and lasting performance of a product that has to deliver for you day in, day out.

Amefa is member of the Business Social Compliance Initiative.

Amefa work's together with SGS worldwide. SGS is the world's leading inspection, verification, testing and certification company.

SILVER AND GOLD PLATED

Silver plated cutlery

Silver plated cutlery is the epitome of table culture. The silk appearance of the material is unique and adapts to use on both classic and contemporary patterns. Amefa has a range of patterns suitable for silver plating, which comply with the most stringent quality demands of the industry. For the modern silver-plating process Amefa always uses German factories for the "electro plating" of silver onto the chrome nickel steel which complies with the European Standards EN ISO 8442-2. The material is as important as the finishing. We therefore only use the highest quality 18-10 chrome nickel steel.

Silver plating

Amefa can offer varying levels of micron when it comes to silver plating which we are specify as follows:

Silver plating:	B60	B90	B100	B120	B150
Thickness:	24*	36*	40*	48*	60*
* micron					
Purity of Silver:	999+/1000 %				

CUTLERY MAINTENANCE

All Amefa products are subjected to rigorous quality control.

Cutlery is produced in either 18/0 chrome steel or 18-10 chrome-nickel steel. These types of steel are stain resistant. Modern dishwashing systems and today's aggressive detergents will not be harmful to your cutlery as long as you follow these guidelines.

Stains on cutlery can be caused by:

- Insufficient cleaning or drying
- Too high a dosage of detergent
- Not rinsing the cutlery after usage so acids and salts from food products can stain or damage the cutlery.
- Contact between various types of steel like chrome and chrome nickel steel or chrome nickel steel and silver(plated) material. (contact corrosion)

To prevent stains we advise you to follow these instructions:

- Rinse the cutlery directly after usage
- Dry cutlery by hand with a dry cloth if still moist after cleaning in the dishwasher.
- Please follow the dosage of detergents as per the instructions of the manufacturers. Very dirty dishes do not require a higher dosage of detergent.
- Follow the maintenance instructions of your dishwasher meticulously.
- To prevent contact corrosion (caused by different types of steel which come into contact with each other) we advise you to put the knives in a different basket than the forks and/or spoons.
- Place the blade of the knife upwards and the prongs of the forks as well. This causes the water to rinse off easily and to guarantee proper cleaning of the various items.
- Remove the cutlery from the dishwasher as soon as the cleaning program is finished.

Gold and Silver plated cutlery

All silver and gold plated cutlery is very delicate. In order to maintain its lustre for as long as possible, we advise that you clean this by hand.

Gold plated cutlery

To give your cutlery a 'Royal touch', you can accentuate certain decoration lines on your cutlery or have it completely gold plated (except the knife blades as these cannot be plated). Amefa uses only 23 carat gold and thus assures you of a perfect finish. We use a company in Solingen, Germany, capable of producing high quality gold plated cutlery products.

Quality of Gold: 23/24 Carats
Thickness: 0,1 micron

PVD COLORED CUTLERY

This season's most versatile PVD colours bring a touch of warmth and understated glamour to the table. Expertly cut from the finest materials and polished to a sublime finish. PVD (Physical Vapor Deposition) means several layers of titanium coating were added to give the cutlery a vibrant colour that makes a true statement on any table. Whatever your choice, mirror or matt, daring black or glamorous copper, our coloured cutlery collection will be the talk of the table.

STONEWASH

For those who like to bring something special, our stonewashed cutlery brings character and charm to your table setting. Tumbler stones create the 'aged' look that has taken its place at the modern day table. At first glance every spoon, fork and knife looks the same, but when you look closer, you will see not one item is exactly alike.

CUTLERY AMEFA PREMIERE

PREMIERE

When it comes to pulling out all the stops, with our Premiere cutlery we not only strive to meet, but exceed our customers' expectations. Effortlessly chic designs crafted in exceptional quality 18-10 stainless steel. Each piece is finished to our exacting quality standards and will give you years of exemplary service.

SABATIER TROMPETTE®

Since 1874, Sabatier Trompette has built a reputation for outstanding cutting performance. The brand guarantees high levels of manufacturing standards throughout the manufacturing process combined of both traditional and modern technology know-how.

Focusing on form and function, we use highly sophisticated materials to produce extremely reliable and functional knives for both professional and amateur chefs.

TECHNICAL SPECIFICATIONS

All the SABATIER TROMPETTE blades are made of a high-quality steel perfectly adapted to a professional and intensive use. The molybdenum vanadium (MOV) increases the hardness and the flexibility of the blade to keep optimum cutting performances through the time. MOV is also easier to sharp.

The rounded back of blades guarantees a better comfort of use.

BACK OF BLADE ROUNDED

ULTRA PRECISE SHARPENING

The cutting edge of the SABATIER TROMPETTE blades fits all the professional requirements.

At the very end of the production process, the SABATIER TROMPETTE knives benefit from a manual leather polishing of the blade edges. This careful operation enhances the cutting performances and guarantees an excellent finishing.
