PREBEN LIND  
Founder and owner of  
LIND DNA

LIND DNA is rooted in Denmark. In danish design, craftsmanship and local production.

All our products are born out of passion for beautiful, subtle design and impeccable craftsmanship.

Everything we do is based on local and sustainable production, the use of durable materials and top-notch quality standards.

## MADE IN DENMARK

All LIND DNA recycled leather designs are hand-crafted in Denmark, ensuring unprecedented quality in every step of the production process.

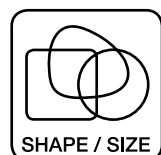

## SUSTAINABLE DESIGN

Sustainability is at the heart of the LIND DNA strategy. Our recycled leather is made from 80% recycled leather and 20% natural rubber.

## CUSTOMIZATION

Our inhouse design and graphic team combined with our extensive range of colours provide great flexibility in supporting special customization ideas from our customers.

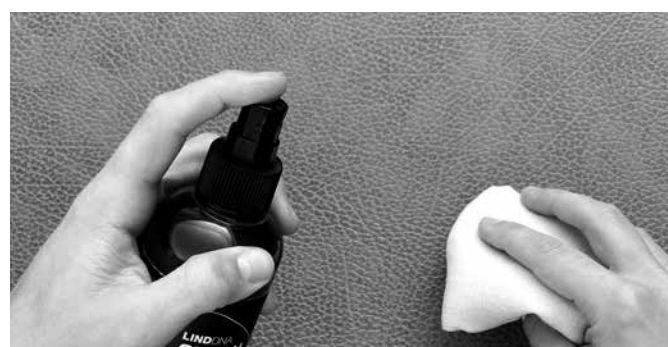

## SHAPE / SIZE

With our very special inhouse production set-up, we can meet your wishes as for customization of size and shape. We can fit any setting to your tables and surroundings.

## FLEXIBILITY & SPEED DELIVERY

Due to local production, delivery time is short for both customized and standard orders, which ensures the highest degree of flexibility.

## MAINTENANCE

The unique combination of recycled leather and natural rubber gives a strong and durable material, which is very easy to maintain, and which will keep its look and feel through continued use.

Jette Skovbjerg, Vice President, LIND DNA

Hotels and restaurants from all over the world turn to LIND DNA for an excellent quality of products – tailored to your needs. It is our mission to help dining, drinking and service-establishments not only to get noticed, but also to be remembered. Be remembered for gorgeous design, intelligent details and sustainable choices that - together with an exquisite service - provide an outstanding experience for your customers.

We know that in hotel & contract business it is often the details that make the difference – and we are here to make these extra details

talk. We experience that hotels – independent as well as hotel chains – seek to create a special atmosphere with their interior decoration that inspire the guests with unique and creative solutions. It is all about creating an atmosphere and cozy surroundings – a “home away from home”-feeling. Furthermore, interior decoration is more and more about sustainability – and most of our customers want this to be consistent within their concept.

If you want to know more about the possibilities for a cooperation, we would love to get in touch.

# SUSTAINABILITY IS RESPONSIBILITY

## WITH RESPECT FOR NATURE

The bedrock of most of our designs is high-quality recycled leather. Sourced from the surplus production of furniture, bags and shoes, our vegetable-tanned leather is first being washed and granulated and then pressed together with natural rubber from trees. The resulting quality consists of 80% real leather and 20% natural rubber - which then is dyed and decorated with beautiful surface structures and patterns. It holds outstanding physical characteristics, such as being water repellent, durable and easy to clean.

Besides recycled leather, we work with responsibly sourced European oak and wool, and all of our products are designed in-house and primarily manufactured in Aarhus.

All of our materials are chosen with respect for nature - because we care about the world we live in. And we cherish the beauty of natural products.

## AS FAST AND LOCAL AS POSSIBLE

In line with our rapid growth in recent years, our production facilities have grown extensively. By now, we have approximately 3000 square meters of production space available and insist – whenever possible - on our own, local production in Aarhus, Denmark. We choose to do this for a number of reasons:

First of all, local production gives us the opportunity to be hands-on throughout the entire process of product maturation and to secure continuously high manufacturing standards. Secondly, we care deeply about sustainability and our own production enables us to limit our footprint on the environment. On top of that, we can respond to market needs in a heartbeat and produce to order - which is important in a growing market. We can deliver quickly. And last but not least, being under one roof gives us the advantage that ways of communication are short.

We believe in local craftsmanship as an enormous source of strength and prefer to cooperate with other local suppliers. LIND DNA - Danish design, made in Denmark.

# TABLE RUNNER

Our TABLE RUNNERS can be used as a central part of your overall table decoration or as tete-a-tete table setting. The TABLE RUNNERS come in two different sizes, in a thinner 0,8 mm recycled leather quality. This makes the product flexible to ensure that the recycled leather bends comfortably around the table edge. See the colour selection below.

## CUSTOMIZATION

We can customize the TABLE RUNNER according to specific table sizes. If the TABLE RUNNER fits the measures of the table top - and does not bend around the table edge - you can choose among all our recycled leather surfaces and colours.

# CURVE STONEWARE

DINNER PLATE

PLATTER PLATE

CURVE STONEWARE

Due to its distinctive shape, CURVE STONEWARE lets you rethink how to arrange and serve food on a plate, platter or in a bowl. At the same time, the collection lets you play even more with the symmetry of your table top ensemble by adding another dimension of curves to your table. Our STONEWARE collection is available in black, navy blue and off-white. All three colours play very well with the unique, mat surface of the stoneware and highlight the colours of your dishes beautifully.

- Very durable material
- Strong surface, that limits cutting marks
- Heat resistant up to 200 °C
- Dishwasher safe

This stylish collection of cutting boards may have a wooden appearance, but it's actually made from compact laminate, a very strong and durable material consisting of multiple kraft paper layers pressed together with resin from trees. Due to their appealing design, the boards are very versatile and can also be used as decorative serving boards for tapas or snacks.

# NAPKIN RINGS

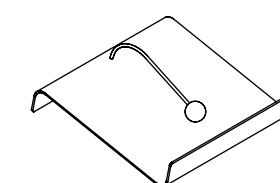

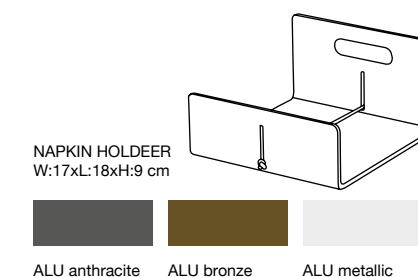

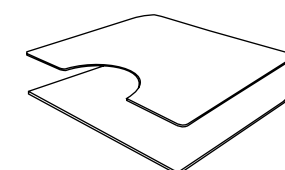

Our napkin rings in recycled leather are a traditional item with a new look, embellishing the napkins beautifully on your table arrangement. They are available in one-sided colours as well as double-sided colours to fit your table setting. The double-sided napkin rings are reversible with different appealing colours on either side and can be flipped to choose a different colour option every now and then.

# NAPKIN HOLDERS

Our NAPKIN HOLDERS are designed for storing paper napkins, on and off the table. The two handmade designs in aluminum and steel covered with recycled leather, are ideal for keeping the napkins in place thanks to the leather cords.

The stylish NAPKIN COVER is, on the other hand, designed solely in recycled leather as an envelope to store and protect your napkins. All three napkin holders make your napkins look decorative and express the beauty of simplicity.

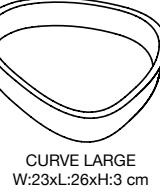

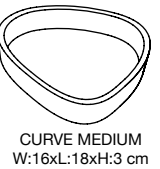

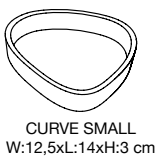

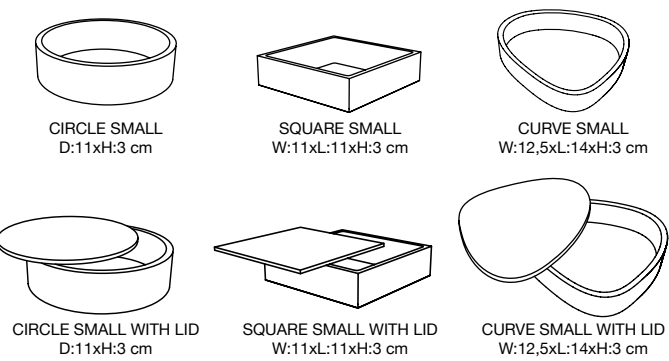

# WOOD BOX

Our beautiful wood boxes are designed from European oak and treated with vegetable oil, which make them suitable for serving snacks. They come in three shapes CURVE, SQUARE and CIRCLE- making size S suitable for storing our GLASS MATS in recycled leather. The WOOD BOX small comes with or without a lid in any recycled leather colour.

# VASES

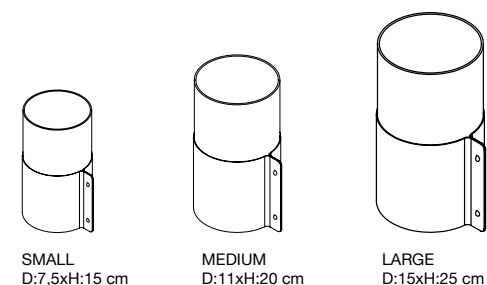

## BLOCK VASE

The unique and simplistic BLOCK VASE is made from glass wrapped in recycled leather, with a handstitched handle. The colour can be tailored within our full range of recycled leather colours and surfaces.

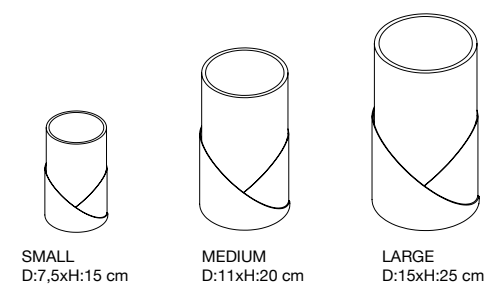

## BLOCK VASE WOOD

Our unique BLOCK VASE WOOD is a decorative accessory for flower bouquets or large candle lights. Made from glass, wrapped in wooden veneer and closed with rivets. The veneer is attached to a layer of recycled leather, so it sticks to the glass and does not slip.

## FOLD VASE

Our FOLD VASE is made from glass wrapped in recycled leather and closed with rivets. The colour can be tailored within our full range of leather colours and surfaces.

## STICK HOLDER

Our STICK HOLDER in recycled leather arranges your chop sticks beautifully and adds that little extra something that makes all the difference. Available in all colours and surfaces to fit your need. It is an advantage to choose the double-sided to be able to turn it and switch the colour.

# MENU, WINE & PAYMENT HOLDERS

On the following pages we present our various collections of MENU, WINE and PAYMENT HOLDERS. All products in these collections are made from recycled leather and our wide colour palette enables you to match the collections to your complete table setting with beautiful colours and functional details that will impress your guests.

We design and produce at our own production facilities in Denmark, which secures a high level of quality and flexibility. This makes it possible for us to customize the products to your wishes and needs - and we take pride in inspiring you with new, unique designs.

OSLO is an elegant collection of menu/wine folders and a payment card, designed to add on to a truly exclusive restaurant experience to your customers.

The simplistic folders, made from recycled leather, come with an elastic string inside, that will neatly hold several menu pages in place. At the same time, it allows for a swift and easy exchange of pages.

OSLO is available in size A4, A5, a tall folder, a new payment card and a double edition. The collection comes in all LIND DNA double sided leather colours (displayed on page 51), which gives you the opportunity to play with different colours on the inside and the outside of your folders.

The new OSLO DOUBLE is a perfect solution with Menu and Wine card in one. This makes it easy and elegant for both you and your guests to flip the menu.

# LET THE DETAILS TALK

It is all about creating an atmosphere and an outstanding experience for your customers. Our mission is to help your establishment not only to get noticed, but also to be remembered for gorgeous design and intelligent details. Details that - together with an exquisite service - provide an outstanding experience for your customers.

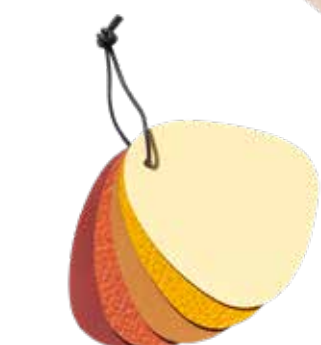

We offer many degrees of customized solutions that match your overall interior design. In the end, interior design is based on inspiring atmosphere, aesthetic and functionality. We know that in hotel & contract business it is often the details that make the difference - and we are here to make these extra details talk.

Whatever your wishes are, we can support and inspire you with products, colours and designs that create your very unique style. Most of our collection is designed and produced at our own production facilities in Denmark, which secures a high level of quality and flexibility. Our in-house design & graphic department support our customers with special ideas and wishes. From custom made tray inlays to TABLE MATS in unique shapes, coasters in special sizes, menu folders with embossing or embellishment (like stitchings), different opening & closing mechanisms for your menu or payment holders with your own logo on top - you name it, we make it.

Our goal is for you to make a statement in any kind of setting and to create a truly unique and memorable experience for your guests.

Time and time again.

# LEATHER SURFACES

LIND DNA's recycled leather is decorated with different surface structures, patterns and colours. All surfaces hold outstanding physical characteristics, such as being water repellent, durable and easy to clean.

**BUFFALO**  
With its large and natural looking pattern and its worn aesthetic, BUFFALO is an unspoiled surface, that brings a perfect foundation of rustic style to your table.  
QUALITY: 2 mm

**CROCO**  
CROCO is the perfect statement to your table. With an unmistakable, lively pattern, CROCO invites to conversation and fun around your table. If you are into organic structures and playful expressions, this surface is perfect for you.  
QUALITY: 2 mm

**CLOUD**  
With its smooth structured surface, CLOUD has a strong leathery look to it. The play of lighter and darker colour nuances look a bit like the clouds in the sky - with a slightly polished finish.  
QUALITY: 2 mm & 3 mm

**BULL**  
BULL is soft, durable and looks slightly polished. With a small, fibrous pattern, this surface has a classic leathery look. Its rustic expression fits into your everyday table setting.  
QUALITY: 2 mm & 3 mm

**LACE**  
LACE has a half-glossy, half-matte, extravagant surface, inspired by premium lace fabrics. LACE will make the perfect statement at your next event. Promised!  
QUALITY: 2 mm

**HIPPO**  
HIPPO has a distinctive and durable surface. Its clear structure with different depths, creates a beautiful play of bright and dark shades across its surface.  
QUALITY: 1,6 mm

**NUPO**  
NUPO has an exclusive, brushed suede-like surface, with a soft structure. NUPO is elegant and timeless.  
QUALITY: 1,6 mm

# CARE GUIDE

## FOR LIND DNA RECYCLED LEATHER PRODUCTS

LIND DNA's recycled leather products are natural products (made of 80% hard leather and 20% natural rubber). To maintain their beautiful aesthetic appearance and great quality characteristics in the long run, it is important that they are treated correctly. The following instructions show you how:

- Clean your recycled leather product with a damp cloth and LIND DNA's cleaningspray. Recycled leather products are not dishwasher safe. Do not soak any of your products in water or soap.
- Avoid stains from certain foods and liquids - such as curry, saffron, paprika, chili, red wine and tannins - as they may result in permanent damage, if not removed immediately. Be extra careful with lighter leather colours.
- Do not place hot items, such as pots and frying pans on your products.
- Do not fold your recycled leather products.
- Avoid exposure to direct sunlight for longer periods of time, as this may harm the leather structure of your product.
- Make sure to place your recycled leather products on dry and plain surfaces only. Be extra careful with oil-treated tables, as excess oil might be absorbed, if not removed immediately.

# CLEAN&CARE

LIND DNA's new cleaning spray CLEAN&CARE was developed to perfectly clean your table mats, glass mats and other products in recycled leather. It brings back the beautiful finish of your product after use and adds a refreshing scent. CLEAN&CARE can either be sprayed directly on the surface of your product or on a damp cloth.
