## BORN AS OUR LOGO NOW SHAPING OUR DESIGNS

The CURVE shape represents our logo and defines a long number of our designs. It was born from a strong belief that simplicity lasts the longest, and a wish to create designs with an inviting appeal to be used on the table. Today the Curve shape stands as the ICON for many of our products.

Soft to the eye, the unique, organic CURVE shape invites you to create inspiring table settings and to bring people together in a friendly and relaxed atmosphere. Introduce the CURVE shape to your table by using LIND DNA Table Mats, Stoneware, Wood boxes, Cut&Serve, and Candleholders.

## MADE IN DENMARK BY PREBEN LIND

LIND DNA was founded in 2013 with the ambition to rethink interior design from a sustainable perspective. Behind the company is Preben Lind, who is also the designer and owner of LIND DNA. The fact that we have founder, owner and designer within the company ensures that the development of new design and interior concepts always originates from the heart of LIND DNA.

# DK

## MADE IN DENMARK

All LIND DNA recycled leather designs are handcrafted in Denmark, ensuring unprecedented quality in every step of the production process.

## SUSTAINABLE DESIGN

Sustainability is at the heart of the LIND DNA strategy. Our recycled leather is made from 80% recycled leather and 20% natural rubber.

## CUSTOMIZATION

Our inhouse design and graphic team combined with our extensive range of colours provide great flexibility in supporting special customization ideas from our customers.

## SHAPE / SIZE

With our very special inhouse production set-up, we can meet your wishes as for customization of size and shape. We can fit any setting to your tables and surroundings.

## FLEXIBILITY & SPEED DELIVERY

Due to local production, delivery time is short for both customized and standard orders, which ensures the highest degree of flexibility.

## EASY TO CLEAN

The unique combination of recycled leather and natural rubber gives a strong and durable material, which is very easy to maintain, and which will keep its look and feel through continued use.

## RECYCLED LEATHER

The bedrock of most of our designs is OEKO-TEX® certified, recycled leather. Sourced from surplus production from the furniture and fashion industry, the vegetable-tanned core leather is first granulated, and then pressed together with natural rubber from trees. The result is a recycled leather quality, consisting of 80% core leather and 20% natural rubber – a material that is not only incredibly durable and water repellent but also easy to clean. Lastly, the recycled leather is dyed with water-based colour and embossed with beautiful surface textures and patterns.

Dive into our world and explore how we turn any table setting into a playground with endless possibilities. With thousands of choices in terms of expressions to match the occasion.

## NEWS: SERENE LEATHER

Using only the finest techniques, the soft recycled leather, SERENE, is an exclusive addition to the existing qualities created from 80% granulated surplus leather from the fashion and furniture industry mixed with 20% natural rubber from the rubber tree.

The SERENE leather is available in all current shapes and sizes of table mats, and can be used in combination with any other products like the rest of our leathers. It is suitable for customization as well. SERENE comes with a beautiful surface structure, dyed with water-based colours, and is available in 8 contemporary colours: Cream, Ash, Mole Grey, Anthracite, Black, Nature, Hazel and Moss.

## SERENE - THE AUTHENTIC

Leather SERENE is a very durable type of leather and differs from other LIND DNA qualities by being softer and more flexible, without compromising on strength and durability. The combination of these qualities makes SERENE stand out as our most authentic, high quality, leather type, which is very easy to clean due to a durable sealing coating. The material is 1,2 mm thick and consists of 80% core leather and 20% natural rubber.

## NUPO - THE SOFT

Nupo is one of our most popular structures. It has an exclusive, suede-like surface, with a soft structure. Nupo is elegant and timeless - the perfect choice for almost any interior style. The material is 1,6 mm thick and consists of 80% core leather and 20% natural rubber.

## HIPPO - THE 2-TONED

Hippo is developed with inspiration from the world of animals and its characteristic structure with different depths creates a beautiful play between bright and darker shades across the surface. The material is

1,6 mm thick and consists of 80% core leather and 20% natural rubber.

## REVERSIBLE - 2 IN 1

From quiet morning coffee to vivid weekend gatherings with friends and family, our unique reversible structure will turn your dining table into a playground with endless possibilities of expressing your unique personality - just turn your table mats over to create a new look, colour and setting to match the occasion.

## BULL - THE STRONGEST

Bull is one of LIND DNA's strongest structures. The slightly thicker structure makes the material incredibly durable and easy to maintain. With a small, fibrous pattern, the surface has a classic leathery look. Bull is soft, durable and conveys a slightly polished look. The material is 2 mm thick and consists of 80% core leather and 20% natural rubber.

## BUFFALO - THE RUSTIC

With its large and natural looking pattern, Buffalo is an unspoiled surface, that brings a perfect foundation of rustic style to your table. Alternatively, it can beautifully balance out a more sophisticated table setting in a grounded and understated way. The material is 2 mm thick and consists of 80% core leather and 20% natural rubber.

## CUSTOMIZATION AND DESIGN

LIND DNA offers a very large and versatile collection of products for the hospitality and project market - beautiful and functional at the same time. On top of that, we have an in-house design & graphic department to support our customers with special ideas and wishes.

We produce most of our collection in our own production facilities in Aarhus, Denmark, which secures a high level of quality and flexibility.

We offer many solutions within customization - exclusive and unique products. Whatever your wishes are, we can support and inspire you with products

and designs that create your very unique style.

From custommade trays to table mats in unique colours and surfaces, coasters in special sizes, menu folders with embossing or embellishment (like stitchings), different opening & closing mechanisms for your menu holders or payment holders with your own logo on top - you name it, we make it.

Our goal is for you to make a statement in any kind of setting and to create a truly unique and memorable experience for your guests.

Time and time again.

## WE DO...

All kinds of shape, colour and surfaces, your wish is our command.

We have five standard shapes, but we can make other shapes and sizes to suit your wishes and needs. If you have an idea for a shape, we will support and inspire you with products and designs in order to create a unique shape to match your idea. All our surface textures and colors can be mixed with shapes and sizes and we can therefore customize a solution to suit the desired style.

## CARE GUIDE FOR LIND DNA RECYCLED LEATHER PRODUCTS

LIND DNA's recycled leather products are natural products (made of 80% Core leather and 20% natural rubber). To maintain their beautiful aesthetic appearance and great quality characteristics in the long run, it is important that they are treated correctly. The following instructions show you how:

Clean your recycled leather product with a damp cloth and LIND DNA's cleaningspray. Recycled leather products are not dish-washer safe. Do not soak any of your products in water or soap.

Avoid stains from certain foods and liquids - such as curry, saffron, paprika, chili, red wine and tannins - as they may result in permanent damage,

if not removed immediately. Be extra careful with lighter leather colours.

Do not place hot items, such as pots and frying pans on your products.

Do not fold your recycled leather products.

Avoid exposure to direct sunlight for longer periods of time, as this may harm the leather structure of your product.

Make sure to place your recycled leather products on dry and plain surfaces only. Be extra careful with oil-treated tables, as excess oil might be absorbed, if not removed immediately.

### CLEAN&CARE

LIND DNA's cleaning spray CLEAN&CARE was developed to perfectly clean your table mats, glass mats and other products in recycled leather. It brings back the beautiful finish of your product after use and adds a refreshing scent. CLEAN&CARE can either be sprayed directly on the surface of your product or on a damp cloth.

The leather cords allow you to hang the PENDULUM from the ceiling in the height you prefer - enabling you to create engaging levels and dimensions in your interior.

## FLOOR MAT

Our floor mats come in three different shapes – all in 3 mm thick recycled leather. They add style and tactility to your kitchen, bathroom or living room, while at the same time protecting your floor from wear and tear.

## CURVE SHELF

Designed in the recognisable curve shape, and coated with recycled leather, this minimalistic steel shelf is ideal for both decoration and storage purposes. Its open shape gives you easy access to all items from any angle.

WARDROBE  
2022

**A WARM WARDROBE UPGRADE**

Breathe new life into your hallway or wardrobe. Bridging form and function, our wardrobe collection offers a line of unique pieces that will bring a modern touch and a warm welcoming feel into your home.

## SWING

SWING transforms European oak and a leather cord into a decorative and functional design solution for wardrobes and smaller hallway spaces. Combine it with our selection of hangers or hooks to display your favourite clothes and accessories. SWING only takes up very little space and with the adjustable leather cords, this is the ideal solution where space is limited. WALL SWING is a smaller, more minimalistic version of the SWING design - a hanging coat rack, mounted on the wall and in the ceiling.

### S-HOOK

If you are looking for an alternative to the classic hanger, you might want to go for our simple and versatile S-HOOKS.

### CURVE HOOK

A minimalistic yet recognizable hook for towels and similar. Coated with recycled leather, available in two different sizes and two different colour options. Mounted easily with double adhesive tape on the back.

### WALL DOT

Inspired by the curve shape, the WALL DOT is designed as a decorative and functional design for your wall. WALL DOT is made from oak and steel, coated with our durable recycled leather. With the flexible mounting and several varieties of colours and sizes, it is possible to create your own personal as well as practical piece of art on your wall.

## SMALL FURNITURE 2022

### ADD A SOPHISTICATED EDGE

Our collection of small furniture is characterised by subtle lines and beautifully paired materials. The recycled leather combined with steel and wooden elements create the foundation for the entire series. With an appearance that is both simple and elegant, the furniture fits perfectly into any setting and adds a sophisticated edge to the interior.

We strive for our designs to challenge and surprise you, why several of our furniture is cleverly designed as knock-down pieces – flat-packed and easily self-assembled – inviting you to connect and engage with the designs and enabling us to reduce our environmental footprint.

## CURVE LOUNGE TABLES

Our collection of Curve Lounge Tables is based on the classic design of our Curve Tables. The well-known curve shape invites an organic expression to your home and is the epitome of our design DNA. Two or three steel plates are connected by oak legs, and the inherent warmth of the wood adds a soft expression to the tables. The different sizes and heights allow multiple tables to blend together in formations - in any living room, lounge setting or lobby area.

## PICK-UP TABLE

The portable PICK-UP TABLE is designed with a reversible, recycled leather mat on its top plate, making it possible to change the look of your table in a blink. Choose among a variety of different leather surfaces and colour combinations and personalize the expression of your table. The table comes with an aluminium Jewel in the middle of the table.

## TURNTABLE

TURNTABLE is a simple and elegant side table, available in two sizes that can either be used separately or positioned in beautiful pairs or clusters throughout your home. Designed with a reversible mat on its top plate and a aluminium JEWEL, it is easy to change the look of your table.

## STRAP TABLES

Developed as a flatpack for stress-free self-assembly, STRAP TABLE is a unique combination of materials that are shaped into an iconic piece of furniture with great usability. The STRAP TABLE S has been sized up to a larger version, and both sizes beautifully combine recycled leather with oiled oak. With a small handle, the STRAP TABLE is easy to carry around and fits anywhere in the home – as bedside table, coffee table, next to a sofa or your favourite armchair, or simply as a statement piece.

### CURVE CHAMELEON TABLE

CURVE CHAMELEON TABLE is designed with a black, lightweight steel frame for an understated appearance. The legs have a graphic angle and add a distinctive character to the minimalistic design, making it striking from any perspective. The table comes with a TABLE MAT CURVE L in recycled leather on top. However, as the name indicates, CURVE CHAMELEON TABLE offers an extra functional dimension, as you can change the table mat with any other TABLE MAT CURVE L.

### CURVE COFFEE TABLE

Crafted from a combination of black steel with recycled leather or wood veneer on the top plates, the CURVE TABLE will add a distinctive touch to an otherwise minimalistic interior. The minimalistic construction adds a sophisticated edge to your interior and enables you to create small sculptural clusters when placing them in pairs or groups.

## STOOL&TABLE

The concepts of presence and togetherness form the basis for the STOOL&TABLE. The piece is practical in countless ways – as a side table in the bedroom or lounge area or as a seat for unexpected guests allowing you to simply sit down and be present. STOOL&TABLE is designed in shaped aluminium coated with recycled leather and an oak rod.

## BAG-UP STOOL

The stackable BAG-UP Stool is designed to offer your guests a place to put your bag. It is produced in black steel and is beautifully covered with recycled leather on the outside.

## STRAP TABLE CUT&SERVE

Our curiosity in experimenting with materials led us to combine STRAP TABLE S with our CUT&SERVE boards, thereby materializing our new STRAP TABLE CUT&SERVE. Available in two finishes: ash and walnut, you can use the tables as decorative pieces in your interior or as an alternative way of serving food and creating engaging levels on the buffet or sideboard to your next family feast.

## TABLE&MORE

Let only your imagination set the limits with the versatile TABLE&MORE. Use it as a table or as a container for logs, blankets, magazines, and much more. You can even stack TABLE&MORE on top of each other and create your own personalized bookcase.

## FLAMINGO HIGH STOOL

Long, sleek legs and an elegant outline define the FLAMINGO HIGH STOOL. The high stool is a versatile seating option that will add character and edge to your home - making friends and family want to linger. The seat is designed in solid steel covered with our recycled leather. The shape is curved to give it a great ergonomic curve.

## BENCHES

Our line of BENCHES brings a feeling of soft serenity to any space throughout your home thanks to the simple, graphic design. Place it in the hallway, at the end of your bed, or simply as a statement piece in any room. BENCH is available in two finishes - either with a fixed recycled leather surface or with a reversible, hand stitched cushion made of recycled leather on one side and European wool on the other side.

## CASE: THE CAMBRIAN

The Cambrian is dedicated to providing its guests with unrivalled service, and our design-task was to create an interior with authentic local colours and cosmopolitan comfort. Based on the stunning mountain surroundings and the elegant interior design, LIND DNA created a complete table setting collection of table mats, cutlery holders, tray inlays, menu and payment folders to complement the natural elegance of the surroundings. All in recycled leather with customized logo embossment. We know, it is the details that make the difference to the overall impression, and the work mats for the conference center made from recycled leather with hand-stitched edges, could make that extra impression to the guests of atmospheric Hotel Cambrian Adelboden.
