# PORCELAIN PRODUCTION

## PRODUCCIÓN DE LA PORCELANA

### 100% NATURAL RAW MATERIALS

We choose the best kaolin, quartz and feldspar, the main primary materials from which porcelain is made. It gives the pure white colour.

### MATERIAS PRIMAS 100% NATURALES

Elegimos el mejor caolín, cuarzo y feldespato, las principales materias primeras con las que se fabrica la porcelana, aportando un color blanco puro.

### HANDMADE PROCESS

In-house manual manufacturing gives us the possibility to ensure maximum care to the smallest details.

### HECHO A MANO

La fabricación totalmente manual nos da la posibilidad de asegurar el máximo cuidado de hasta el más mínimo detalle.

## HAND POLISHED

Once dried, the porcelain is carefully polished by hand to get the best result after firing.

## PULIDO A MANO

Una vez seca, la porcelana se pule cuidadosamente a mano para obtener el mejor resultado después de la cocción.

## HIGH TEMPERATURE

PORDAMSA porcelain is fired up to 1400°C / 2552°F. The result is a durable product, more resistant to chipping and pure white.

## ALTA TEMPERATURA

La porcelana de PORDAMSA se cuece a 1400°C / 2552°F. El resultado es un producto duradero, más resistente al astillado y de blanco puro.

# SILKY MATTE

## *silky touch*

We are very conscious of going beyond creating a container to serve food, we want the dish to convey an emotion. And the sense of touch could not be missing.

PORDAMSA has developed a special matting system that provides an extremely soft touch, while protecting the piece for food use.

With a non-porous finish, it has the same protection as glossy enamel pieces, but with a silky finish.

Never has a plate been so smooth.

Muy conscientes de ir más allá de crear un recipiente para servir un alimento, queremos que el plato transmita una emoción. Y el sentido del tacto no podía faltar.

PORDAMSA ha desarrollado un sistema de matizado especial que aporta un tacto extremadamente suave, a la vez que protege la pieza para el uso alimentario.

Con un acabado no poroso, tiene la misma protección que las piezas con esmalte brillante, pero con un acabado sedoso.

Nunca un plato había sido tan suave.

# PORDAMSA<sup>®</sup>

## and sustainability

For us, sustainability means to do it right. That is why in PORDAMSA we make our own porcelain paste and our own enamels from 100% natural raw materials.

In addition, we use natural elements during the production: air, water and fire. Water for making the paste, air for drying the pieces and fire for cooking.

Our way to give back to the earth is generating the minimum of waste by reusing the porcelain paste and the excess enamel to make new pieces.

Para nosotros, la sostenibilidad es querer hacerlo bien. Por eso en PORDAMSA realizamos nuestra propia pasta de porcelana y nuestros propios esmaltes a partir de materias primas 100% naturales.

Además, para la fabricación de nuestras piezas utilizamos elementos naturales: aire, agua y fuego. Agua para la realización de la pasta, aire para el secado de las piezas y fuego para la cocción.

Para devolver a la tierra todo lo que nos proporciona, generamos el mínimo desperdicio reutilizando la pasta de porcelana y el esmalte sobrante para elaborar piezas nuevas.

## zen

Stunning and clean design that will be the ideal blank canvas for your culinary creation. The plates are slightly curved in order to direct the liquids toward the center and the stylized shape of the bowls will bring elegance and modernity.

A great proposal for all environments that can be used alongside any of our porcelain ranges.

Extraordinaria colección de líneas depuradas que será el lienzo perfecto para toda creación culinaria. Los platos disponen de una ligera inclinación que conducirá los líquidos hacia el centro y sus estilizados boles aportarán elegancia y modernidad.

Una propuesta ideal para todo tipo de ambientes que se podrá complementar con cualquiera de nuestras demás vajillas de porcelana.
