TABLE

IMPERIAL

The Imperial dinner service is made of magnesium strengthened porcelain which, besides making the Imperial crockery extremely strong, also gives it a bright shine. This, in combination with the warm white colour, gives this lightweight dinner service an Imperial beauty.

- Magnesium strengthened porcelain
- Oven and microwave safe
- Dishwasher safe
- Lightweight

KIRYU

The special composition of clay is responsible for the significant characteristic of Kiryu, its very light weight.

The thin porcelain gives the series refinement and elegance. With its lively blue colour, every dish shines on these plates.

For lovers of food

It is said that we taste a dish with our eyes before we even take our first bite. And every true lover of food, from the Michelin-starred to the enthusiastic amateur, knows anticipation is the finest of seasonings. Our collection is designed to engage all of the senses. Rich colors and beautifully textured finishes transform every meal into a dish worth celebrating.

CLASSICO

This line comprises a wide range of stoneware items, perfect for serving canapés and nibbles. The line is distinctive for its scratch resistance and authentic colour. The items in the Classico line are made of Andalusian stoneware. This oven-safe stoneware is renowned throughout Spain. The items in this line are, of course, equally suitable for serving 'cold' tapas.

WOOD WORKS

These serving boards are made of durable Longan wood. Longan is a fruit tree which, when it stops giving fruit, normally only serves as firewood. Instead, we make beautiful serving boards from it. These are sawn out of one piece, not glued and therefore very strong. The planks can be used on 2 sides and have 2 hygienic milled handles. The sawmill has provided the planks with 2 layers of Tung oil. This drying, protective oil is completely food safe and makes the planks water repellent. Skottsberg Tung oil is also available separately so you can maintain the plank for a lifetime of pleasure.

KITCHEN

CAST IRON COOKWARE

A natural and durable alternative for chemical non-stick cookware

Inspired by the pioneering spirit of early gentleman explorers, our Skottsberg Cast Iron Cookware range is robust enough to take on the road and be plunged into an open fire. Cast iron withstands extremely high temperatures and retains heat very well, making Skottsberg pans ideal for essential daily stovetop cooking like searing steaks or simmering delicious slow-cooked stews.

As our SKOTTSSBERG cast iron pans are pre-seasoned, you can use them straight out of the box. Just clean the pan with hot water, start cooking, and enjoy your pan for life!

We don't use chemical coatings, but only natural oil to pre-season the pans. This takes place through a process called fat polymerization, which creates a hard surface that serves as a non-stick natural coating. This film hardens over time, so every time you use your pan it automatically gets better and better! When you want to speed up this process of hardening the film, you can season your pan yourself before first use, or whenever you feel it can use some extra seasoning.

Our purposely limited range of essential pans are all you need to cook the dishes you love.

- Also suitable for induction
- Not dishwasher safe
- Long lifespan
- Foodsafe

CAFÉ TRAY

Polypropylene

- Traditional, lightweight and scratch-resistant tray with a lightly structured surface to reduce the risk of things sliding about and help avoid spills
- The trays have raised edges for easy stacking and drying
- We recommend cleaning the trays by hand

LABELFRESH

Find out how easy it is to comply with processed food labeling legislation! LabelFresh makes sure that tagging processed and stored foodstuffs will as of now be done in a standardized, simple and efficient way.

The advantages of LabelFresh:

- Plenty of space to write
- Easy to remove and leaves no adhesive residue
- Every day has its own colour
- Refills are individually packaged and do not get dirty or greasy
- One dispenser format for free switching between the Easy and Pro system
- Label text is in English

Starter kit:

the Label Fresh labels are available as a starter kit together with a stainless steel or plastic dispenser. This way you immediately have everything you need to easily comply with legislation.

LabelFresh Easy:

the Easy system is mainly aimed at small businesses and sole traders where the foodstuffs are usually processed by one person.

LabelFresh Pro:

the Pro system has been developed for companies where the food is processed by several people.

Wegter is exclusive distributor for LabelFresh in the Netherlands.

OPTICLEAN

The OptiClean™ dishwasher rack system by Carlisle is a complete line of dishwasher racks for glassware, plates and cutlery. OptiClean™ dishwasher racks are strong, durable and stackable, and compatible with other brands of racks. Thanks to their division into 9, 16, 25, 36 or 49 compartments, optionally in combination with an extender, these glass racks are suitable for numerous kinds of glasses. A convenient glass rack size guide can be found in our webshop www.wegter.nl/carlisle.

A small selection of our OptiClean™ racks is shown on these pages. Please feel free to contact us for more options and information.
