

AERIAL SILK

Welcome to **ARIZE** Aerial, developed by X-POLE. **ARIZE** Aerial equipment has been tried and tested in studios & homes across the world for over 8 years. Our material has been selected by professionals for the ultimate aerial experience.

PRODUCT: Aerial Silk

STRETCH: Medium

FABRIC: Polyester

CLEANING:  Wash on a low silk wash

 **DO NOT** place silk in a tumble dryer

All our aerial products have been load tested. Our aerial material has been tested to a non returnable tear.

Aerial Silk Single Material			Aerial Silk Double Material		
BL (Breaking Load)	668kg	1472.69lb	BL (Breaking Load)	1007kg	2220lb
WWL (Working Weight Load)			WWL (Working Weight Load)		
5:1	133.6kg	294.53lb	5:1	201.4kg	444lb
10:1	66.8kg	147.26lb	10:1	100.7kg	222lb

To get the best out of your material, make sure it is kept out of direct sunlight and keep the material away from anything that can snag. Make sure that anyone using the fabric does not have rings, zippers or watches on, as this will tear the material. Once the material has a tear we strongly recommend that it is replaced. Check for wear and tear before every use.

It is mandatory that all aerial equipment must be thoroughly checked before every use.

We recommend using a Terminal 8 or Figure 8 to rig your silks.

Silk & Terminal 8
