

BOOT FIT GUIDE

The following boot circumference and shaft height measurements were taken from women's size 7 boots, men's size 9 (M). Measurements will vary slightly than what is stated for sizes smaller or larger than 7. Calf circumference measurements for ankle boot were taken at top of the boot, while knee & thigh boot calf circumference was taken at from where the upper meets the heel at 11.5" height of the shaft . Thigh circumference were measured at the top of the boot shaft. Boot shaft height measurements were taken from where the upper meets the heel to the top of the boot shaft.
