## DEKORWACHSLASUR

### Plus:

- Special formulation combining the properties of oils, the resistance of resins and the beauty of waxes
- With UV filters
- Enriched with additives against molds
- It protects from oxidation and weathering
- Light resistant colors, with complete covering of the background
- High viscosity, no dripping
- Easy brush application
- Ideal for wooden houses, fences, shutters and other exterior elements
- Suitable also for interiors

Customizable with Borma Color System
