

the hospitality soundbar by **Dampf**®

# Our Favourite Songs Make Us Feel At Home

The first soundbar dedicated to hotel rooms. Secured Bluetooth pairing, Volume limitation and Easy connection to TV. Nothing but the best for your guests.

Bluetooth

# about Dampf®

DAMPF

**Dampf® is far from unfamiliar with audio solutions dedicated to hotels.** We are convinced that in this day and age, hotel guests should be able to enjoy their favourite music in high-quality sound – at the flick of a switch.

Our favourite songs make us feel at home, even when we are away from home. Our Bluetooth Hub [first introduced in 2014] can be found in a selection of great hotels, varying from ultra-luxury properties in metropolitan cities, to high-tech sleeping pods in airports.

Dampf® Bluetooth Hub has been one of the first in-room audio solutions to combine a high-quality audio experience with superb user-friendliness and a zero-maintenance design. The latter has always been our mission.

Little has changed over the years. Our mission with Dampf® air™? To provide a super easy upgrade of hotel rooms by making great sound-quality part of the in-room experience.

great sound makes a **Difference**

People get more and more used to high-quality audio. Hotel guests deserve better sound than most TVs' audio performance.

Dampf®air™ adds good sound-quality to the hotel room TV and provides Bluetooth audio streaming. All-in one slick speaker. Easy-to-install, zero-maintenance and highly appreciated by hotel guests.

John47 wrote a review  
Dec 2022

Comfortable hotel with helpful staff. Our room was large and well-equipped.

Good stereo sound on the tv. Great touch to our stay.

Living

We didn't even use our own bluetooth box. The music system was really nice." 😊

# Bedroom

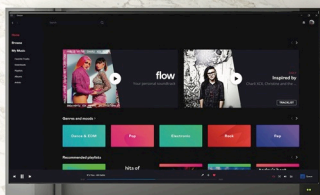

Watching my favourite series in bed.  
And what a sound! 🤫🤫🤫 🖼️ ❤️

# Bathroom

Soo nice to have music  
in the bathroom 🎵 😊

# Conference
